All prices are subject to change without notice.

Unknown correspondents desiring to open an account will please furnish three references to parties in the trade with whom they have had credit relations, and allow sufficient time to investigate same.

We do not ship perishable items C.O.D. unless accompanied by a partial payment.

All goods are offered subject to crop failure, shortages or other causes beyond our control and to being unsold on receipt of order.

ANNUAL FLOWER SEEDS

NOVELTIES FOR 1949

Larkspur Regal Rose

Aster Super Giant Santa Maria

This is the largest and most fully double pure white Aster ever seen. Resulting from a "Break" in our growers' trial grounds several years ago.

Santa Maria produces flowers over six inches in diameter, with long lacy white petals curling from interlaced center. These mammoth blooms are carried on stout $2\frac{1}{2}$ foot stems branching from the base.

Ipomea Blue Star

An entirely new color in Giant Morning Glories, a distinct shade of clear sky blue accentuated by five deeper blue mid-ribs to form an attractive star.

The flowers are of great size, being larger and earlier than the ever popular Clark's strain of Heavenly Blue. They average from 4 to $4\frac{1}{2}$ inches in diameter and are borne in great profusion.

Larkspur Regal Rose

(see illustration)

Big news for the florist trade this year is the announcement of the New Regal Strain of Larkspur, bred especially to cut flower growers' specifications.

Tremendously long, thick spikes. Full, Delphinium-like florets. Compact, basal branching habit. Excellent shipping qualities.

Features such as these assure that the Regal strain will command top price in the cut flower market. It's a premium quality Larkspur and the first of the series to be available from 1948 crop is Regal Rose.

Marigold (French Double) Miniature Spry Hybrids

Here is a refreshingly new hybrid strain of Miniature Marigolds. While there are three or four separate colors, as well as a fine mixture of these colors in existence, this is the first time such a complete variety of colors and bloom type has been offered.

An abundance of varied flower formations in new and unusual combinations of yellow, mahogany, scarlet and orange are to be found in this strain.

Each plant is a symmetrical specimen of neat compact growth. The dwarf uniformity of this strain readily lends itself to border plantings and bedding use.

Snapdragons Tetraploid or Spring Flowering

This new class of snapdragons is proving to be of value to the florist trade for spring and summer cutting, both indoors and out. After the winter crop is over and cut off, the Tetraploid snaps come in with strong stems, long spikes and huge florets.

PAN-AMERICAN PINK

A tetraploid hybrid. Deep rose-pink. Good indoors for a spring crop or for summer blooms outside.

Double Snapdragons Snowdrift

Snowdrift is 98% full double, pure white with massive spikes. Individual florets are large and make beautiful corsages. Genetically Snowdrift is an early mid-winter snap, but during the colder, darker months, it has a tendency to blast a few buds on each spike.

Therefore it is recommended only for early blooming in November and December or for spring months of March and April.

Allegro

Medium to deep salmon, dwarf, giant-fringed. A gorgeous new color. It has proved to be very popular.

Caprice

Bright rose, dwarf, deeply-fringed. The most popular variety of 1947. The favorite color of any petunia.

Minuet

Beautiful orchid-lavender. Taller than other varieties, but fine for pots if pinched. Unpinched it makes lovely long-lasting cut flowers. Small percentage of smaller semi-doubles.

Nocturne

Deep midnight purple, dwarf-fringed, high percentage of large-flowered doubles.

Sonata

This has proved to be 100% large-fringed, no small semi-doubles. Semi-dwarf, pure white. The best white double ever offered.

Improved Lindig Soil SHREDDER

The new improved Lindig Soil Shredder is a superior machine in many ways. Speedy, thorough, and perfect shredding of soil, peat, manure, compost piles, leaf mold, sphagnum moss, shingle tow, and sods. Easily shreds three to four times the amount of soil that could be screened by hand in the same amount of time. Five models to meet every shredding need. All models are 36" high and 44" overall. Steel wheels. Send for descriptive circular.

An ELEVATOR ATTACHMENT and a SCREENING ATTACHMENT are also available. The former can be mounted directly to the shredder and will load or pile material 8 feet high. The latter is designed to remove the rocks, sticks, roots, etc., from the shredded soil; vibration of the screen allows small particles of manure and other humus to pass through.

Model No. 1-A. Feeder hopper size, 16×18 in. beater drum, $8\frac{1}{2}$ in. wide, with four rows of teeth. Without motor......\$130.00

Model No. 2-A. Feeder hopper size, 16 x 20 in. Beater drum, $19\frac{1}{2}$ in. wide, with five rows of teeth. Without motor........\$160.00

Rubber Tires. For use with all models. Per set............\$18.50

Screening Attachment. For use with all models. Designed to remove rocks, sticks, roots, and other undesirable material from the shredded

For Models No. 1-A and 1-A-5. \$50.00
For Models No. 2-A and 2-A-7. 60.00
